Shake A Fist

Hot Chip

I'm ready to try this
The centre's a sea pit
I could be wealthy
With nothing to stop meI'm ready to try this
(I move underwater)
The centre's a sea pit
(I eat water slaughter)I could be wealthy
(Inside a moon and palace)
With nothing to stop me
(Let's rain another chalice)Out and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutYou said if I tried this
(I'd be teleported)
But when you first tried this
(Your mind de-contorted)And if this is heaven
(I might have to tell you)
I'm gonna give hell, just
(A quick once over)Out and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist

And let's breathe within, withoutBefore we go any further
I'd like to show you all a game I made up
This game is called 'Sounds Of The Studio'
And it can be played with any recordIncluding this one you may be surprised
Now if you have a pair of headphones
You better get 'em out and get 'em cranked up
'Cause they're really gonna help youThat's a pure solution
That's my magic potion
That's the incantationThat's a pure solution
That's my magic potion
That's the incantationOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutOut and out and out
Out and out and out
Shake a fist
And let's breathe within, withoutYou said if I tried this
(I'd be teleported)
But when you first tried this
(Your mind de-contorted)And if this is heaven
(I might have to tell you)
I'm gonna give hell, just
(A quick once over)I'm ready to try this
(I move underwater)
The centre's a sea pit
(I eat water slaughter)I could be wealthy
(Inside a moon and palace)
With nothing to stop me
(Let's rain another chalice)
