

# +1 (feat. Sam White) - Radio Edit

[Martin Solveig](#)

Ooh, baby, ever feel you're naughty for the fun baby?  
I could take you undercover, on the run, baby  
The night is young  
Now can I be your plus (plus, plus), be your plus one?  
Can I be your plus one?  
I could be your plus one I'll be everything if you let me in  
Music on my skin (if you tell me)  
All you got to say, you got that triple-A  
And I'm on my way (if you tell me)  
Can I be your plus one?  
I could be your plus plus Ooh, baby  
Ever feel you're naughty for the fun, baby?  
I could take you undercover, on the run, baby  
The night is young  
You and me on the run, can I be your plus one? Ooh, baby, would you play my song?  
Show me the ropes, I know you're second to none  
I know how far you've come  
Now can I be your plus, your plus, be your plus one? One, one, one  
Can I be your plus one?  
I'll be everything, everything if you let me in  
(Can I be your plus?)  
Can I be your plus one? (Plus, plus, plus) Can I be your plus one?  
Can I be your plus one?  
You and me, on the run  
One, one  
One, one  
One, one  
Ooh, baby, would you play my song?  
Can I be your plus one?  
I can be your plus one
