

# Normal Song

## Perfume Genius

Hold my hand  
I am afraid  
Please pray for me  
When I am away Comfort the girl  
Help her understand  
No memory  
No matter how sad  
And no violence  
No matter how bad  
Can darken the heart Or tear it apart  
Take my hand  
When you are scared  
And I will pray  
If you go back out there  
Comfort the man  
Help him understand  
That no floating sheet  
No matter how haunting  
And no secret  
No matter how nasty  
Can poison your voice  
Or keep you from joy
