

# Sometimes

## My Bloody Valentine

Close my eyes, feel me now  
I don't know how you could not love me now  
You will know with her feet down to the ground  
Over there and I want true love to grow  
You can hide, oh no, from the way I feel  
Turn my head into sound  
I don't know when I lay down on the ground  
You will find your hand down hurts to love  
Never cared and the world turned hearts to love  
We will see, oh now, in a day or two  
You will wait, see me go

I don't care when you're head turned all along  
You will wait when I turn my eyes around  
Overhead when I hold you next to me  
Overhead to know the way I see  
Close my eyes, feel me now  
I don't know maybe you could not hurt me now  
Here alone when I feel down too  
Over there when I await true love for you  
You can hide, oh, now the way I do  
You can see, oh, now oh, the way I do
