

Doomsday Machine (Live at Trix)

Kadavar

Remember the words
I'll teach you to wait
Let the terror rise
I'm in my doomsday machine
The game has changedMy destiny
It's all over now
You stay together
To keep up the fightBut I'll wait forever
You won't stop my right
The power of my action
The traps that steerYou won't stop my right
Their deadly smiles
Sinners wanna be saved
The loving girl that's showing the way
Is my doomsday machineThe screams terrorize the child
The catcher of the deadly sin
Is my doomsday machine
Remember the wordsI'll teach you to wait
Let the terror rise
I'm in my doomsday machine
The game has changedMy destiny
It's all over now
You stay together
To keep up the fight
But I'll wait foreverYou won't stop my right
The power of my action
The traps that steer
You won't stop my right
Their deadly smilesSinners wanna be saved
The loving girl that's showing the way
Is my doomsday machine
The screams terrorize the child
The catcher of the deadly sins
Is my doomsday machine
