

Facts Don't Lie

[Kathryn Cloward](#)

I protected you
And I held your secrets close
Even when it hurt
What was right still mattered most
You blamed me
I guess it was easier that way
But I don't understand
Why the truth was just too hard to say
The facts don't lie
Even when you claim it's otherwise
True is true you know
The facts don't lie
No matter how you twist them round
And try to change the story in your mind
The facts don't lie
Was I too trusting
Because you played me for a fool
When the patient words I spoke to you
Came back to me so cruel
Changing your direction
When I called you to account
For everything you did in darkness
The light is sure to draw it out
The facts don't lie
Even when you claim it's otherwise
True is true you know
The facts don't lie
No matter how you twist them round
And try to change the story in your mind
The facts don't lie
Even when you claim it's otherwise
True is true you know
The facts don't lie
No matter how you twist them round
And try to change the story in your mind
The facts don't lie
Oh the facts don't lie
