

# The Naked At School Dream

## Inspection 12

I read the whole book so I raised up my hand.  
The whole class starts laughing and I don't understand.  
So I walked to the chalkboard, then I knew without a glance.  
Because I felt all of their burning eyes  
and I wasn't wearing pants.  
Some say dreams have meaning.  
Well if they do I'd like to ask:  
Am I too self-concious of my skinny little ass?  
Or is it just some random coincidental thing?  
"cause everyone I know has had that same disturbing dream.
