

# Write Me a Love Song

Mike Cross

I don't like what I'm seeing  
Cuz I can tell that your leaving  
I knew having your love was too good to be true  
I won't try to keep you from going  
Your like a river that has to keep flowing  
But before you leave there's something I want you to do

Write me a love song  
Sing it to me all night long  
Weave it from moonbeams and starlight  
A song about sweet things  
So I can have sweet dreams  
Something to cling too through the long lonely night

I thought maybe times would get better  
We'd live a love song together  
But now I see it just wasn't meant to be  
So if I only knew how  
I'd write a love song for you right now  
But since I can't  
Won't you write one for me

Write me a love song  
Sing it to me all night long  
Weave it from moonbeams and starlight  
A song about sweet things  
So I can have sweet dreams  
Something to cling to through the long lonely night

You don't have to say a word  
Or try to tell me why  
There's nothing that I want you to explain (there is nothing to explain)  
I can make it through the lonely nights and all the tears I'll cry  
If you just leave me a pretty song to sing

So Write me a love song  
Sing it to me all night long  
Weave it from moonbeams and starlight  
A song about sweet things  
So I can have sweet dreams

Something to cling to through the long lonely night

Wont you write me a love song  
Sing it to me all night long  
Weave it from moonbeams and starlight  
A song about sweet things  
So I can have sweet dreams  
Something to cling to through the long lonely night

Leave me something to cling to  
Through the long  
Lonely Night

---
