Underpass (Mark Reeder's Sinister Subway Remix)

John Foxx

Standing in the dark
Watching you glow
Lifting a receiver
Nobody I knowUnderpass
UnderpassWell I used to remember
Now it's all gone...
World War something...
We were somebody's sonsUnderpass
UnderpassOver all the bridges
Echoes in rows
Talking at the same time
Click-click drone...Underpass
UnderpassMisty on the glass now
Rusty on the door
Here for years nowClick-click drone
Click-click drone
Click-click drone
Click-click drone
Click-click...Underpass
Underpass
Underpass
UnderpassUnderpass
Underpass
Underpass
Underpass
