Oslo

Norfolk & Western

Nothing, I thought nothing of you
Just another young man
Running up the mountain
There are many like youMistaken, it's not meant to be this
It's not meant to be love
Crossing path and that is all
And that was allTurning me
And handle me
Come through me
And close to meTurning me
And handle me
Come through me
And close to meI wish we had one long night
Stain each other
We won't see one another
Will you always remember?Turning me
And handle me
Come through me
And close to meTurning me
And handle me
Come through me
And close to me
