

Last Man Standing

Travis Garland

Radio, throw the drums in there, son.

Yeah, ha.

Listen,

You got what I want so let's talk about it

Your body's in the zone and I'm all about it

And now you telling me your frustrated 'cause your man ain't been on his job

Listen here

All of your requests, baby I'll provide it

Call it UPS , we 'bout to over night it.

Here to make it right, baby I'm the silver lining.

Now I feel somethin' rising

Oooh,

Chorus

Cause I'll be the last man standing

I give it, I give it, I give it, to you longer

Going in, going in, going in 'til the mornin'

Keep you awake all night

I give it, I give it, I give it, to you longer

Going in, going in, going in 'til the mornin'

Zip it down

Shirt off

If you got buttons

I'll rip them off

Lights down, real low

Turn the music up

& let's go

I can tell you need some satisfaction

Take a trip with me see, what I'm packing

Hear me when I say I'm always keeping your needs above my own

Baby girl I can knock them out like automatic

Bend you all around, like acrobatics.

Take you all the way baby, I got the magic

Anything you can have it when you are with me

Chorus

Could you imagine I memorize what you fantasize.

Now how I sound if you say your name right after mine

Now say it back the other way a couple hundred times

Don't tell your ... my spot is G14 classified

I admire your intellect then your bra size
As I aspire your run away till the sunrise
.You say I'm ... going for the long running
All I really need is one shot, golden gun
Cause I'll be the last man standing
I give it, I give it, I give it, to you longer
Going in, going in, going in 'til the mornin'
Keep you awake all night
I give it, I give it, I give it, to you longer
Going in, going in, going in 'til the mornin'
Zip it down
Shirt off
If you got buttons
I'll rip them off
Lights down, real low
Turn the music up
& let's go
[Keep you awake all night, awake all night...]
