Open Doors Ojuelegba Refix

Khaligraph Jones

Yeah i'm standing on a stage
Looking at the audience i'm frightened
They told me that this thing was all exciting
All the attention i'm attracting on the mic and the hype and the buzz
Got me thinking about my life when
I'm doing this it's gonna be next year
I see you focus on your swagg and your fresh gear
Mahn im trying to be a damn legend
Men is that clear
I had a dream that one day
I'd be sitting on a round table with kanye
Talking about business and buying beach from Andre
The say that best things comes to those who are humbly.
