Come Find Me

Clare Bowen

Shootin' off the flare across the sky lightin' up the night
The signal's out, I'm ready now
Feels like I'm right on the edge of fallin'
So close I can almost taste it
So beautiful that I'm shakin', yeah
Yeah, seems like I've been standin' here forever
I'm gettin' tired of hesitatin'
So if you're out there somewhere waitin'
I'm shootin' off a flare across the sky lightin' up the night
The signal's out, I'm ready now, come find me
Like a diamond shinin' in the sand hold me in your hands
I'm callin' out, I'm ready now, come find me
Come find me
Come find me
Come find me
I've always been so careful with my footsteps
So safe, so delicate, I let my heart move to my head
But look at where that got me
Lettin' love just pass me by
Missin' out on butterflies, I wanna feel it now
So if you're out there waitin'
I'm shootin' off a flare across the sky lightin' up night
The signal's out, I'm ready now, come find me
Like a diamond shinin' in the sand hold me in your hands
I'm callin' out, I'm ready now, come find me
Come find me
Come find me
Come find me
You're so close, don't stop now
Gettin' so close, don't stop now
Shootin' off a flare across the sky lightin' up the night
The signal's out, I'm ready now, I'm ready
Shootin' off a flare across the sky lightin' up the night
The signal's out, I'm ready now, come find me
Like a diamond shinin' in the sand hold me in your hands
I'm callin' out, I'm ready now, come find me
I'm ready now
I'm ready now
I'm ready now
