Louisiana Man

Lucinda Williams

Louisiana man with a style his own
Not like some other men I've known
With his cowboy boots and his hats, he wore so well

Caught me eye on the very first day

And I never will forget the way

He played guitar and he sang just like an angelThoughts of you, flicker past Goin' on down the road so fast

The trees and the bushes and the telephones poles fly by

I never seem to have the time

I'll just have to keep you on my mind

How I wish I could keep you by my sideLouisiana man with a style his own

Not like some other men I've known

With his cowboy boots and his hats, he wore so well

Caught me eye on the very first day

And I never will forget the way

He played guitar and he sang just like an angelCountry man with a heart of gold

One more kiss before I hit the road

Hold me one more time before I go

Nights will be longer now

But I'll get along somehow

I've learned how to do it all beforeLouisiana man with a style his own

Not like some other men I've known

With his cowboy boots and his hats, he wore so well

Caught me eye on the very first day

And I never will forget the way

He played guitar and he sang just like an angelSharp cutting wings
