

Koochy

Armand van Helden

When I call your celly late at night
I want there koochy and I'll do it right
when I call your house after work
I want there koochy and I'll make this work
I want there koochy and I'll make this work
I want there koochy and I'll make this work

When I call your house after work
I want there koochy and I'll make this work
When I call your celly late at night
I want there koochy and I'll make it right
When I call your house after work
I want there koochy and I'll make this work
