Love Is Blind

Atc

If love is blind, I'll find my way with you
Yeah, yeah, yeah
People say that you're no good for me
People say it constantly
I hear it said so much
I repeat it in my sleep, yeah
Maybe I ain't just a fool for you
Maybe you're no angel too
But all this talk is cheap
When I'm alone with you
If love is blind, I'll find my way with you
'Cause I can see myself not in love with you
If love is blind, I'll find my way with you
All the world is crazy, anyway

It doesn't matter what they say
If I am the one that's wrong
Then let it be my mistake
If love is blind, I'll find my way with you
'Cause I can see myself not in love with you
If love is blind, I'll find my way with you
You wouldn't be with me tonight
If I didn't feel I was right, no, no, oh
What will it matter anyhow
A hundred years from now?
Oh, if love is blind, I'll find my way with you
'Cause I can see myself not in love with you
If love is blind, I'll find my way with you
