

# Brainwashed

## Six Feet Under

You will die, no love there for you  
There's no guiding light  
To lead you through the night Only screams of torment  
Only fear and emptiness  
No life after the grave, only pain Lies, lies to live and die by  
Passed down through the years  
The truth, they'll never let you hear Only screams of torment  
Only fear and emptiness  
No life after the grave, only pain, pain, pain The disease of life continues  
Only the blind will follow  
And rot in the dirt  
Afraid to live, dead before you died Brainwashed, you live blind  
Brainwashed, they rot alive  
Brainwashed, preach your lies  
Brainwashed, I watch you die You will die, no love there for you  
There's no guiding light  
To lead you through the night Only screams of torment  
Only fear and emptiness  
No life after the grave, only pain Only screams of torment  
Only fear and emptiness  
You're the one who is lost, brainwashed
