

We Cannot Deny

36 Crazyfists

We cannot deny
What I would give for memories that wouldnt keep me up at night
What I would give for memories that wouldnt keep me up at
We cannot deny, we cannot deny
Its a shame that all we have is a memory that cannot kill the fear
And get out, get out alive, and get out, get out alive
You wont find any comfort here
When I begin
And I may have friends
Some of them the best that any man has ever known
But they have troubles, they have troubles
They have troubles all their own
We cannot deny, cannot deny, cannot deny
Its a shame that all we have is a memory that cannot kill the fear
And get out, get out alive, and get out get out alive
You wont find any comfort here
In the wake of all the terror and the hell
I am constantly reminded all the crosses that I bear
And if you never knew then keep it buried
And if you never knew then keep it buried
Its a shame that all we have is a memory that cannot kill the fear
And get out, get out alive, and get out, get out alive
You wont find any comfort here
Its a shame that all we have is a memory that cannot kill the fear
And get out get out alive, and get out get out alive
You wont find any comfort here
