

# Questions

## Buffalo Springfield

Where are we going love?  
What are you feelin'?  
Now that I've caught my love  
My head is reelin'  
With the questions of a thousand dreams  
What you do and what you see  
Come on lover, talk to me  
When I was on my own  
Chasin' you down  
What was it made you run  
Tryin' to get around?

The questions of a thousand dreams  
What you do and what you see  
Come on lover, talk to me  
Now that we've found each other  
Where do we go now?  
I'd like to know what you're thinkin'  
Answer me slowly now  
The questions of a thousand dreams  
What you do and what you see  
Come on lover, talk to me, yeah
