Don't Fall In Love With Me

Barry Manilow

She was just a girl who knew the way I was so naive Everything she ever said to me I wanted to believe I was close to too far gone When she sat down and Told me tenderlyDon't fall in love with me I'll only break your heart For us forever is just tomorrow Don't fall in love with me Don't let the fire start If you should fall I'm afraid I'll follow youNow I'm on the other side of love Lookin' right at you There you are so young and sure Your life has room enough for two So it's up to me to try and say Words that didn't stop me yesterdayDon't fall in love with me I'll only break your heart

For us forever is just tomorrow
Don't fall in love with me
Don't let the fire start
If you should fall
I'm afraid I'll follow you
