

# Running Away

## Fuel

Everyday you're on my mind  
Pain is feeling passing time  
But if she found out about us she would die  
And if I have to live without you so would I  
So I thirst for the water  
I find myself wanting now So I'm running away to you  
I cannot escape you  
To feel your touch  
The faith you prove  
I'm running away to you Hearts are never made of stone  
Pain will cut you to the bone  
But I know that holding you is all so wrong  
So tonight's the last we'll ever be alone  
So I thirst for the water  
I find myself wanting now So I'm running away to you  
I cannot escape you  
To feel your touch  
The faith you prove  
I'm running away to you Turn around, fill my eyes with you  
All senses to commit  
Till everything's all right
