

Chaos & Mayhem

Pop Will Eat Itself

I got the message from you
It left me blackened and blue
All I need is what I have
Yes, I know that must sound bad
But I speak only the truthNow there's nothing left to say
Well, I'd forget it anyway
Well, we're winding up the same
It's the same old stupid game
Now we're burning up in flames'Cause I'm a jumped-up punk generator
Chaos and mayhem instigator
Don't like to work, I just like to dream
Ain't gonna sing "God Save The Queen" I'll give it ten minutes more
And then I walk through the door
I'm an angel of desire
I have wings and I'm a flier
I'm a songbird and I'll singSo we're trying hard to care
And it feels just like a dare
I can put up with the wait
While we're reaching for the bait
Dare to win or choose to loseAnd we'll survive with wills of iron
And we'll survive with wheels on fire
We'll survive with wills of iron
We'll survive with wheels on fire
Or could it be that I'm a liar?'Cause I'm a jumped-up punk generator
Chaos and mayhem instigator
Don't like to work, I just like to dream
Ain't gonna sing "God Save The Queen" "Cause I'm a jumped-up punk generator
Chaos and mayhem instigator
Don't like to work, I just like to dream
Ain't gonna sing "God Save The Queen" No more, no less
Is what you get
And my heart's set
Set on discovery, yes
No more, no less
Is what you get
And my heart's set
Set on discovery, yesHead set on discovery, yes
Head set on discovery, yes
Head set on discovery, yes

Hellbent on discovery, yes'Cause I'm a jumped-up punk generator
Chaos and mayhem instigator
Don't like to work, I just like to dream
Ain't gonna sing "God Save The Queen" No more, no less
Is what you get But we'll survive with wills of iron
And we'll survive with wheels on fire
Or could it be that I'm a liar?
Maybe, just maybe
But we'll survive with wills of iron
And we'll survive with wheels on fire
Or could it be that I'm a liar?
Maybe, just maybe
