

The Same Thing

Jordan Johnson

Verse One

Ooh, I don't know what you want me to do babe

I can't seem to read you

Do you want me to stay?

Ooh, can't tell if you're mad or sad

If I left would you be glad?

You need to communicate

Something's wrong

If you think that I'm that person

Something's wrong

If you think that's who I am

Now I see

What you wanted to do to me

You're the one to blame

Cause it's the same thing

Now I know

That's the way that you wanna go

Now don't you know it's a shame

Cause it's the same thing

Over and over it's the s-s-s-same thing

It's the same, s-s-s-s-same thing

Verse Two

Ooh, one minute you're glad I'm here

But you need to make one thing clear

Because I'm still confused

I never know what to say

One minute you want me away

But there's no way I'll be used

Something's wrong

If you think that I'm that person

Something's wrong

If you think that's who I am

Now I see

What you wanted to do to me

You're the one to blame

Cause it's the same thing

Now I know

That's the way that you wanna go

Now don't you know it's a shame

Cause it's the same thing

Hook

Over and over it's the s-s-s-same thing
It's the same, s-s-s-s-same thingBridge
I thought that you would change your ways
I thought that maybe it's a phase
I thought wrong, and I should have known it all along
Go through the same thing every day
That's why I'm pushing you away
Movin' on, and before you know it I'll be goneChorus
Now I see
What you wanted to do to me
You're the one to blame
Cause it's the same thing
Now I know
That's the way that you wanna go
Now don't you know it's a shame
Cause it's the same thingChorus
Now I see
What you wanted to do to me
You're the one to blame
Cause it's the same thing
Now I know
That's the way that you wanna go
Now don't you know it's a shame
Cause it's the same thingHook
Over and over, oh
It's the same, s-s-s-s-same thing
