

Help Me Be Good to You

Heather Nova

Here in the light of late afternoon
Sun on the water, I'm thinking of you
How we've come too far to be drifting apart
All this distance we're losing, I know it's my fault But I think that I love you
I know that I do, I just need you To help me, help me be good to you
Help me, help me be good to you
Help me, help me be good to you I don't know why, I can't settle down
Something from my childhood, I still haven't found
And I don't wanna hurt you with all my longings and my doubts
Just the way I need to feel free, I can see how it brings you down Well I think that I love you
I know that I do, I just need you To help me, help me be good to you
Help me, help me be good to you
Help me, please help me dad
Help me be good to you Help me be good to you
Help me, help me be good to you
Help me, help me, help me, help me
Help me be good to you Help me be good to you
Help me, help me be good to you
Help me, help me be good to you
