

Since I Told You It's Over

Stereophonics

Black and blue from the wind and the rain
Said I'm sorry for the lies and the pain
I never ever meant to make you cry
If I could take it back, you know, I would
I want to burn up and die[Chorus]
So take a look at me now
Since I told you it's over
You got a hole in your heart
I'll find a four leaf clover
You can't tell me this now
This far down the line
That you're never, ever gonna get over me You've seen a cross, it's a cross I bear
You're drinking, hard up, living without a hope or a care
You're making do to please, see what makes you smile
You're not around for long, you gotta see what's gonna move your life right along[Chorus] I'm lost
I'm cold
I'm getting old
My head is filled with lies I told I've been down
I've been around
But I've fallen on my own two feet
And I've left you out to drown
I never meant for that I look around, sometimes I stare
I think back now and then, I hope you know I care
I walked away that day, trying to treat you right
But you were on your track, it was me turning back,
I left you freezing outside[Chorus] Never get over me
Never get over me
Never get over me
