

# Breathe

## Kylie Minogue

Don't blame me just because I am bored  
I'm needy, I need to taste it all  
Don't doubt me just because I am quiet  
I'm thinking, thinking about it all  
I'm helpless about the way of me  
And I'm thinking, thinking about it all  
I'm sorting everything inside  
I'm looking in the space  
This time, this void  
I'm making my way through the muddy minutes  
The pull is in my muscle  
The ache is in my bones  
It's hard to be alone  
Breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
See through me when I put up a fight  
Like you, to see the things I hide  
Go deeper than I won't let you know  
I'm frightened but I won't let it show  
I'm helpless about the way of me  
I'm thinking, thinking about it all  
I'm sorting everything inside  
I'm looking in the space  
This time, this void  
I'm making my way through the muddy minutes  
The pull is in my muscle  
The ache is in my bones  
And it's hard to be alone  
Breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now

So breathe, breathe  
Breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So breathe, breathe  
It won't be long now  
So Breathe, breathe  
It won't be long now  
So breathe, breathe
