

# Everything Is Cold

[Lycia](#)

life is so bare, life is so, so bare  
we must not run, must not fight  
we must stay here forever  
everything is cold, everything is cold  
i am such a child, just let me take this away... again  
everyday i pray for love of...  
life, every day i pray for love of...  
life is so bare, life is so, so bare  
i don't think that i can take this again  
everything is cold, everything is cold  
i am such a liar, just let me throw this away... again  
everyday i pray for love of...  
life, everyday i pray for love of...  
la la la la laa laa...
