

Scream My Name

N-dubz

can anyone hear me?,

Need you to feel me,

(Naiii)

I love you now that you finally let me in,
coulda let you punch me out but i get a kick out of taking it on the chin,
when you decided to pin me down to the floor,
ill lift you back over and push even more,
talking about? we are going to war,
helmet stays home, im going in raw.

Ooooh,

you can be my biggest fan, never let me go,
im going to go hotter than i ever did before,

put out my flame you'll

remember my name ooh,oooh oh

can anyone hear me?

today your going to know my name,

im not going anywhere,

need you to feel me,

so baby let me hear you say my name,

im going to be everywhere,

so hit me on youtube,

see me on Ustream,

check out my website,

follow and tweet me,

Scream my name (x2)

Yeahhhh

now that i finally got this chick screaming my name,

it turned her insane,

she flips anytime she likes on me,

like im ? ,

when you got no more juice left in you and you break down in the storming rain,
ill save you , give you that triple A service, vroom vroom, baby were starting again.

Ooooh,

you can be my biggest fan, never let me go,
im going to go hotter than i ever did before,

put out my flame you'll

remember my name ooh,oooh oh

can anyone hear me?

today your going to know my name,
im not going anywhere,
need you to feel me,
so baby let me hear you say my name,
im going to be everywhere,
so hit me on youtube,
see me on Ustream,
check out my website,
follow and tweet me,
Scream my name (x2)
oh oh, oh, oh oh,
not matter where you are,
your never too far away,
oh oh, oh, oh oh, oh
all you gotta do is scream my name,
imma be right there,
wont let you down,
now is forever,
ill be around,
whenever you need me,
shout it aloud,
scream my name, my name, my nameeeee,
can anyone hear me?
today your going to know my name,
im not going anywhere,
need you to feel me,
so baby let me hear you say my name,
im going to be everywhere,
so hit me on youtube,
see me on Ustream,
check out my website,
follow and tweet me,
Scream my name (x2)
