

Dizzy

Green Apple Quick Step

There's a muzzle and a vine
I swing back from time to time
There's a camero, rusty red
That all my best friends drive in
Take of at the light
Straight for the baracade
In a room wiht a god-awful view
Maybe just insane for a while
Can you smell summer air
Take me where they left the light on
Getting close, almost there
If that fuzzy silver badge don't beat us there
My head's dizzy and I can't get away
I'm good today
Leave the light on
There's a laugh, and a look
Like something in a storybook
I cought the eye of electro-woman
And dynomite I blow up slow
Like a sinner I figured it out
I wrote a book and jesus wasn't in it
Try to make the world stop spinning
Or maybe just pretend for a while
Can you smell summer air
Take me where they left the light on
Getting close, almost there
If that fuzzy silver badge don't beat us there
My head's dizzy and I can't get away
