Rip It Up It's There

Avoid One Thing

I want to work on the set of it
I want to walk at the side of all the
careless casualties
I wouldn't want to forget would you
I wouldn't want to see you making calls and
enemies tooknock me right back in my chair dear
sitting there I was just a cause no one seemed to care
it's a shame you shove my love right back under the rug
go on
rip it up it's therea cold car I got friends of mine
a backpack a case of matches
brandon stole a case or two
a good time in the city though
a good time for all who saw me
sneaking out the door with youknock me right back in my chair dear
sitting there I was just a cause no one seemed to care
it's a shame you shove my love right back under the rug
go on
rip it up it's thereit was long over before I ever knew
the tough part is coming up with something else to doknock me right back in my chair dear
sitting there I was just a cause no one seemed to care
it's a shame you shove my love right back under the rug
go on
rip it up it's there
