The Distance That Took You Away

SayWeCanFly

I know I love you but I won't
tell you a thing in case you don't
I know I miss you, but it's o-kay.
I don't get depressed when I am lone-ly.
but I just need something to calm my nerves.
Preferably a cigarette, or something just as absurdOr maybe I want my anxiety to stay
'Cause In the end, it's all I have to ease the pain,
Of the distance that took you away.I'll take a drink because I'm lost
Trapped somewhere deep inside my thoughts
But, if for some reason you forget....
Well, I'll just remember you instead.But I just need something to calm my nerves.
Preferably a cigarette, or something just as absurd
Or maybe I want my anxiety to stay.
'Cause in the end, its all I have to ease the pain,
Of the distance that took you away....â™¥
