

Don't Stop the Show

Golden Earring

From the Albums:

* No promises no debts

* 2nd Live

* The complete naked truth You're in for a cold shower

The man's gonna cut the power

Don't stop the show

Come on baby you can fan the fire

Let the flame burn a little higher

Don't stop the show

Yeah well in case of emergency

I'm gonna send the kung-fu roadie

Don't stop the show

Time time who's got the time

Time time we've got the time

We got about an hour to get things right

Keep that rock 'n roll music goin'

Through the long long hot night

I'm ready willing and able

I'm gonna spit it all over your table

Don't stop the show
