

Rise Up

Foxes

My hands are shaking, but there's nothing to fear
I'm wide awake with my ghost
Lay down beside me while I shut myself in
My tears keep falling, don't wanna feel this way no more
Rise up right now, rise up right now
Rise up - I know you can get off the ground
Rise up right now, rise up right now
Rise up - I know you can get off the ground
Stop a minute 'cause I'm so cold
If the river dries, my heart won't beat right anymore
Rise up right now, rise up right now
Rise up - I know you can get off the ground
Rise up right now, rise up right now
Rise up - I know you can get off the ground
You go, and I'm breaking out
Leaving when the river's low
Say you're gonna make it and stop pretending
Rise up - hey, I'm going on
I don't need your love no more
Leave you when the river's low, stop pretending
Rise up, rise up, rise up
Rise up, rise up, rise up
