

One More Day

New Edition

Yeah, I can't deny it, on the inside, I'm slowly dyin'
But with a little love, it'll be alright, just give me one more day
I promise I'll make it up to you, I never meant to hurt you, baby
Just trust me, listen I can't deny it
That you got me cryin', you see
And I'm, I'm slowly dyin'
So we can't give up tryin' to be With a little love, it will be all right
With a little kiss, let me hold you tight
With a little peace, it could be so fine
And baby, don't you leave me tonight I just need one more day
And I won't make you cry, darlin', believe
And baby, don't say, "Good bye"
Look in my heart and I won't tell you no lies
Just one more day and lovin' me will be fine People tell me that true love is blind
But I'm trying to prove that true love is kind
All that I want is to make things right
So won't you be my baby tonight? I just need one more day
And I won't make you cry, darlin', believe
And baby, don't say, "Good bye"
Look in my heart and I won't tell you no lies
Just one more day and lovin' me will be fine One more day
One more day
One more day
One more day With a little love, it will be all right
With a little kiss, let me hold you tight
With a little peace, it could be so fine
And baby, don't you leave me tonight
I just need one more day Just one more day
Just one more day
Just one more day
Just one more day One more day
One more day
One more day
