Nemesis

David Gray

Neath an avalanche Soft as moss

I am a creeping and intangible sense of loss Im the memory you cant get out your head

But if I leave you now

Youll wish you were somewhere else insteadIm the manta ray

Im the louse

I am the photograph

They found in your burned out house

I am the sound of money washing down the drain

I am the pack of lies

Baby that keeps you saneGates of heaven are open wide

God help me baby Im trapped inside

Feels like Im buried aliveIm the bottom line

Of the joke

I am ecstasy

Spilling like bright egg-yolk

Im the thoughts youre too ashamed to ever share

And I am the smell of it

Youre trying to wash out of your hairGates of heaven are open wide

God help me baby Im lost inside

Feels like Im buried alive

Possibilities limitless

Just give me something thats more than this

One shot and Ill never miss

YesIm the babe that sleeps

Through the Blitz

I am a sudden and quite unexpected twist

I am your one true love

Who sleeps with someone else

I am your nemesis

Baby Im life sweet life itself
