

# Metal

## Gary Numan

We're in the building where they make us grow  
And I'm frightened by the liquid engineers like you  
My Mallory heart is sure to fail  
I could crawl around the floor just like I'm real like you  
The sound of metal, I want to be you  
I could learn to be a man like you  
Plug me in and turn me on  
Oh, everything is moving  
I need my treatment, it's tomorrow they send me  
Singing, "I am an American", do you?  
Picture this if I could make the change  
I'd love to pull the wires from the wall, did you?  
And who are you and how can I try?  
Here inside I like metal, don't you?  
All I know is no one dies  
I'm still confusing love with need
