

Infinity (Extended Mix)

Mohombi

[Verse 1]

I know it's hard to see forever
It's like we're walking in the dark
But we can make it through whatever
If we follow our hearts[Pre-Chorus]
So let me carry you, carry you
Carry you now, all the way
No I won't, no I won't
No I won't let you down, let you down[Chorus]
If the stars never lose their shine
If clouds could float to the edge of the sky
If the sun could burn endlessly
I can love you 'til infinity
Baby girl
Baby girl
Let me love you for a long, long time yeah
Let me love you for a long, long time yeah
Baby girl[Verse 2]

Some people said we'd never make it, no
But we were born to prove them wrong, yeah
And even when the world is fading, yeah
You know that I keep holding on[Pre-Chorus]
So let me carry you, carry you
Carry you now, all the way
No I won't, no I won't
No I won't let you down, let you down[Chorus]
If the stars never lose their shine
If clouds could float to the edge of the sky
If the sun could burn endlessly
I can love you 'til infinity
Baby girl, I can love you 'til infinity
Baby girl
Let me love you for a long, long time yeah
Let me love you for a long, long time yeah
Baby girl[Bridge]

Forever and ever 'til my heart beat dies
I would give you all of me[Chorus]
If the stars never lose their shine
If clouds could float to the edge of the sky

If the sun could burn endlessly
I can love you 'til infinity
Baby girl
Baby girl
Let me love you for a long, long time yeah
Let me love you for a long, long time yeah
Baby girl
