

The Lucky One

Blue October

Out of the blue came the sun
You bottled it up in times of rain
You carry it with you wherever you go
You share it with people that have different names
Whether to wait or weather the storm
You leave it to fate, it's one in the same
As long as you're with me we can move on
As long as you're here I'm the lucky one We don't know
Which way the wind blows and for how long
We're starting over How do we do this on our own
And where do we go when life gets oh oh so emotional
How do we do this on our own
No we don't, we don't, we don't You are the rain conductor
A sunset operator
When the sky goes dark
You're the star locator
Like an old lost instrument
We play this key together
And I'm the lucky one and I'll
I'll be that way forever You came, we saw
A smile that conquered it all How do we do this on our own
And where do we go when life gets oh oh so emotional
It's easy to see we're one in the same
One heart, one star, we are How do we do this on our own
And where do we go when life gets oh oh so emotional
How do we do this on our own
We don't, we don't, we don't We don't How do we do this on our own
And where do we go when life gets oh oh so emotional
It's easy to see we're one in the same
One heart, one star, we are How do we do this on our own
And where do we go when life gets oh oh so emotional
It's easy to see we're one in the same
We don't, we don't, we don't One heart, one star, we are
