

Goodbye

Traci Braxton

Oh baby Broken glass everywhere, shattered on a wall
Pictures of my life from the times when we had it all
(had it all)
We had it all
I really thought fairytales could become true
Living now our lives to the point were me and you
(me and you)
It was me and you I never thought I could find another guy like you
(until I have to say goodbye)
You were my whole life, I thought I gave my all to you
(and now I'm glad I said goodbye)
Can't take another fucking tear, get out of here
(but now I have to say goodbye)
Goodbye
Impressed, boy I tried
Minutes of my life, time is going by
And now you're tryna make it work, you're late
(it's too late, it's too late babe)
Baby you much too late
(it's too late, it's too late babe)
I know I can't escape the memories that we made
But every single day, the memories, they fade away baby
And it's time, I let you go I never thought I could find another guy like you
(until I have to say goodbye)
You were my whole life, I thought I gave my all to you
(and now I'm glad I said goodbye)
Can't take another fucking tear, get out of here, yeah
(but now I have to say goodbye)
Goodbye
Oh baby
At first it was so strange
Not having you beside me, but it's not the case anymore
And everyday life without you's getting so much better, better (yeah)
If I knew then what I know now, things could be so much different from the way they turned out
Now I know it's for the better, so
I'm saying my goodbyes now
Think it's for the best now
Plus I like the view much better from cloud() Eh, eh, bye, bye, bye, eh
