

Retox (feat. Todd Nielson)

Big Smo

I can feel the sunlight creepin' through my window
Last night left me laying on my floor
Who's that sleeping in my bed though
Must'a been the last girl that said hello
Headed to the fridge when my feet hit the ground
I got a hangover that I'm tryna shut down
2 shots of whiskey and a cold beer to pound
And it's back to the bar
We're ready for another round 'Cause we went heavy last night
With the beer and the shots
And we'll start it up again before the day gets hot
Don't even need to look at the clock
'Cause you know we don't stop
It's time to Retox
Keep it going with the hair of the dog
Better bring a Bloody Mary just to start it off
Saddle up and get back on the sauce
'Cause you know we don't stop
It's time to Retox Now we're drinkin' margaritas
And pitchers o' sangria
Singapore slings
With tequila on the side
And them Hurricanes got my brain
Lost on the concept of space and time
But we're still goin', yeah the party's still growin'
We just livin' for the moment
While we're in our prime
'Cause you only live once, so we chalk it all up
In a bottomless cup from morning to night You know it's Mr. Wild and Free
Yeah that's me
And the party don't stop
I can guarantee
From sun up to last call
The whole spot's on fleek
A celebration in the makin'
So call all ya peeps
I drink 1 for breakfast
2 for brunch
3 or 4 more

When it's time for lunch
My whole crew gets turnt
When I walk in the room
And the ladies go crazy
When the bass goes BOOM
