## Sanskrit

Written by: david henman Better take it slow

Feel the shadows flow

You've been watchin' her for oh so long

And it shows Better take it slow

Feel the shadows flow

You've been watchin' her for oh so long

And it shows When you reach the ?

When you see the ?

Let her lead the way

She will reach for you

She will teach you love

She will touch your mind Let the ? take away the pain

Make it feel alright

In the ? talk to me again

Make it feel alright

Make it feel alright

Make it feel alright

Make it feel alright
