Drift Away

Cheyenne Kimball

All the times that i fall drift away

All these lies i've been told i will say

Found a reason for the things that you say

Now I see now so they all fade awaySeen clearer days (I've found every today)

Dreaming of you everyday

And I tell myself that I will be ok

And I Cant believe I ever walked away

And ill take my time until I get it right

And I wanna take it back someday All the times that I found drift away

All these lies I've been told I will saySeen clearer days (I've found every today)

Dreaming of you everyday

And I tell myself that I will be ok

And I Cant believe I ever walked away

And ill take my time until I get it right

And I wanna take it back somedaySeen clearer days (I've found every today)

Dreaming of you everyday

And I tell myself that I will be ok

And I Cant believe I ever walked away

And ill take my time until I get it right

And I wanna take it back somedaySeen clearer days (I've found every today)

Dreaming of you everyday

And I tell myself that I will be ok

And I Cant believe I ever walked away

And ill take my time until I get it right

And I wanna take it back someday

And I wanna take it back

Drift Away

And I wanna take it back someday
