

# Can You Hear Me Now

## Brandy

Some things are best left unspoken  
Don't waste time with that talk  
Just keep that back in motion  
It ain't that easy for me to get off  
But I can be your guilty pleasure  
Just be sure to put it down down down  
Yeah I'm ready for whatever  
But you gotta make mama proud And every night your love for my affection  
And please believe I'm guaranteed to turn you out  
But you just point that thing in my direction  
And when I'm almost there I'll start making those sounds [Chorus]  
Can you hear me now  
Am I getting closer  
Can you hear me now  
Well if not then you're supposed to  
Can you hear me now  
Ah I can hear you baby  
I can see you baby  
Ah I can hear you baby  
I can see you baby  
Ah I can hear you baby  
I can see you baby  
Can you hear me now I'm pretty sure that you notice  
The swagger in my walk  
Just pay attention and focus yeah-eah  
Baby you just gotta play your part And then you can get this treasure  
But you gotta dig deeper down down down  
When nobody love you better  
But you gotta make mama proud [Chorus: x2]
