

# That's All Lies

Jet

My, my, at it again  
Put your finger in the handgun  
I fall down and I try to get up  
But you smack me like a pinball  
Soul, where did it go?  
C-c-c-climb to the top of the mountain  
But you're still alone  
K-k-k-kicking down your front door  
But you're never home  
(That's all lies)  
I wanna see, yes I wanna see  
(That's all lies)  
But everybody close the door on me  
(That's all lies)  
I think I'll download a brand new head  
(That's all lies)  
I'm already dead  
I think I've seen the light  
Yeah, I, I'm gonna be here a long time  
My, my, at it again  
But you said you don't need it  
My, my, at it again  
But you said you don't need it  
Soul, where did it go?  
C-c-c-climb to the top of the mountain  
Break your backbone  
K-k-k-kicking down your front door  
But you're never home  
(That's all lies)  
I wanna see, yes I wanna see  
(That's all lies)  
But everybody close the door on me  
(That's all lies)  
I think I'll download a brand new head  
(That's all lies)  
I'm already dead  
I think I've seen the light  
Yes, I think I've seen the light  
I'm gonna be here a long time
