

# Children and Dogs

Graham Parker

She said she just wanted a friend And then she'd be good  
Something to play with now again And give lots of food  
We've got a yard that's big enough She says he's like a dream  
But they've got us running round in circles Like a pair of clowns it seems CHORUS  
Children and dogs will always win Everyone knows that  
I won't work with either one again It's not in our contract  
Children and dogs Now I'm outside freezing to death Just walking the dog  
Instead of throwing myself at my wife I'm throwing a log  
We haven't slept for two nights He howls out at the moon  
The kid says sometimes he bites Can you bring a bunny rabbit home soon CHORUS  
Make you trip over your ankles Do all kinds of things that rankle  
Make you wanna go and drink a tankful And remember when you were single  
The bedroom's got two carpets And one sticks to your clothes  
Let's take a photo of all of us Fixed grins in a family pose  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
