Tango Between the Lines

Winslow

I find myself racing for dream running out of time
Slowly the world keeps spinning round
Water still flows but will we drown?
They say that times are changin but I dont know if I agree
History repeats itself as we walk blindlyYaGo ahead and free your mind
Open up let your true self find
Theres truth between the lines
One step forward two steps back
Place your hand in mine
In this tango of liesI look to the sky
So many dream have been cast aside
Slowly the world keeps bringing me down
How can I rise above this pain
Before Im in the ground
They say that times are changin but I dont know if I agree
History repeats itself as we walk blindlyYaGo ahead and free your mind
Open up let your true self find
Theres truth between the lines
One step forward two steps back
Place your hand in mine
In this tango of lies
