

# Together

## H & Claire

There's a world  
Looking back now all I see  
Are nights apart feeling incomplete  
Day by day so deep inside  
Through the darkness I can see a light  
When dreams have faded  
When all hope is gone  
Whenever you need me  
I'll help you be strong  
Together we have more of a chance  
To make things better  
We have the power to change  
Now all the wrong we've done  
Can feel we've just begun  
Now we're together as one, as one  
So here we are standing tall  
We can make it, we can have it all  
Trust in me like I trust in you  
We've found the answer, we've found the truth  
To what we believe in and where we belong  
We're here for each other  
United as one  
Together we have more of a chance  
To make things better  
We have the power to change  
Now all the wrong we've done  
Don't fear we've just begun  
Now we're together as one, as one  
The future is clear when I look in your eyes  
Now nothing's between us  
Let's reach for the sky  
(Reach for the sky)  
Together we have more of a chance  
To make things better  
We have the power to change  
Now all the wrong we've done  
Can feel we've just begun  
Now we're together as one, as one
