Another Memory

Thornley

Alone, awake, morning on it's way
Fell in the fall like every other day
No sight, no sound
Only till it fades, it fades away
I'm up, I'm gone, I'll take another turn
I'll face the past, oh, just to watch it burn
And the ashes rise
Only till they fade, they fade away
How long I fall before you are another memory
And how well I know
How long to go before my life is mine
The steps, I take, will go the other way
I'm like a mute with nothing left to say
So I'll close my eyes, only till you fade
You fade away
How long I fall before you are another memory
And how well I know
How long to go before my life is mine
I know, I know it's long and slow
You'll never see how empty
Losing face and saving grace
Can never be together, fade away
How long I fall before you are another memory
And how well I know
How long to go before my life is mine
How long I fall before you are
How long I fall before you are
How long I fall before you are another memory
