

# Fugitive

## Lucky Dube

I' ve been sitting here for many days now  
They' ve been looking for me for many days too  
From where I' m sitting  
I can see their angry faces  
It' s only a matter of time  
They' ll be on to me  
The sirens, helicopters and tings  
The bloodhounds are on my tail, Oh God  
Just in minutes  
They' ll be tearing me apart  
If I don' t do now  
What I' ve been doing all my life  
I' ll be running...all my life  
Chorus:  
I' m the running man  
The fugitive

Seeking political asylum is not easy down here/FONT>  
My father had friends in high places  
And in low places too  
Everytime we asked him to stop running  
We would say  
"Leave all to me, I' ll make it right"  
Today he' s gone, I' m still running  
Coyotes and vultures closing in on me  
I take it a warning  
I' ll be running  
I' ll be running  
'Cause I can  
Chorus till fade
