

# Make Me a Believer

## Crossfade

Will it make me feel even  
Will it make me feel right  
Will it solve all my problems  
Solve my life Make me a believer  
Make me a believer Lost  
Something is lost  
Alone  
Dying alone  
Make me a believer Because it makes me feel even  
Because it makes me feel right  
Because it solves all my problems  
Because it solves my life Lost  
Someone is lost  
Alone  
Dying alone  
Make me a believer Its in my blood  
Its underneath my skin  
Beneath my skin  
Its underneath my skin Your in my blood  
Your underneath my skin  
Beneath my skin  
Its underneath my skin What will you make me  
What will you make me  
What will you make me  
What will you make me  
What will you make me  
What will you make me  
What will you make me  
What will you make me Does it make a difference who I am  
When I'm alone  
Does it make a difference who I am  
When I'm alone Make me a believer  
Make me believe  
Make me a believer  
Make me believe
